- EZ-PC 500 compatible to export data to PC

**CodeScout™ 1500**

*Your first line of diagnostic defense*

Retrieve trouble codes and readiness monitors without holding a book!

Part Number: AX1500

### On screen trouble code descriptions

You no longer have to look up a cryptic code to know why the check engine light is on. CodeScout provides access to thousands of trouble code descriptions. Just plug it into your car and instantly receive information from your vehicle's on-board computer.

### Test for emissions problems

Have you ever waited in the emissions line for an hour only to find out your vehicle will not pass the test? CodeScout allows you to determine the problems and troubleshoot them, giving you peace of mind going into your next emission test.

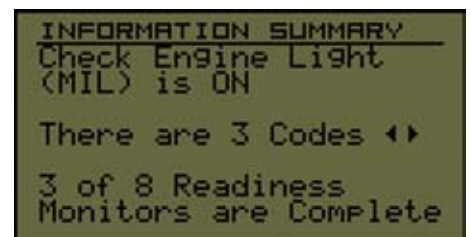

### Reset the check engine light

Do you have an insistent check engine light that is always on? With CodeScout you're able to learn what problem is causing that light to appear. After repair, CodeScout allows you to clear the trouble codes and turn the light off.

### Determine engine problems

Find out exactly what trouble codes are causing your check engine light to come on and empower yourself with information before the trip to a repair shop. Think of CodeScout as a preemptive strike on engine problems.

### Send Information to your PC

Hungry for even more information? CodeScout, in conjunction with CodeTrack, can give you detailed information and diagrams of the problem areas inside your engine. Find details about specific trouble codes that show up when you scan a vehicle.
