## CodeScout™ 700

### OBD-II Code Reader

AutoXray® introduces CodeScout™ 700 a fast and easy to use code reader for DIYers and DIFMers:

- Efficiently and effectively determines the cause of the “Check Engine Light”
- For use on all OBD-II vehicles – 1996 and newer cars and light trucks – domestic and foreign
- Displays MIL (Malfunction Indicator Lamp) status
- Displays I/M Readiness Monitors (Emissions) status
- Save time and money by performing diagnostic scans at any time or any place when your check engine light comes on
- Potentially avoid a trip to the mechanic with the information retrieved with CodeScout™ 700
- Includes trilingual CD with over 5000+ manufacturer and generic trouble codes and their descriptions in English, Spanish and French
- Includes bilingual manual of generic trouble code descriptions in English and Spanish
- Easy to operate for trouble-free use

Part Number: AX700
